Cindy Abelmann-Van Dooren

Passionate about making an impact on society by solving problems with creativity, organizational skills, and logic

About

"I enjoy combining creativity, organizational skills, and logic to create beautiful products that can transform the lives of people all around the world. I like the teamwork involved in this creative process and the feeling of accomplishment when solving the puzzles presented by bugs and new functionality. To me, building new products is an art and being able to participate in this proces makes me feel like I can make a difference."
